

Delete A Book Version

These instructions will show you how to delete a version of your book. This function is great for users that are writing their book using our online word processor. When writing online you can publish your book from different points in your story to create different versions. When deleting a version you are only deleting the PDF and cover you created when publishing, it will not delete the original text in the word processor.

Please Note: You can only delete a version if it is not completely published and listed in the Publishing Incomplete area on the book's detail page.
