

Print A Book From A PDF

Please Note: If you need assistance in creating a PDF please see our [Creating a PDF tutorials](#).

1. Login to TheBookPatch.com by entering your email address and password and clicking the Log In button at the top right.
 - a. If you're not a member, click **Sign Up** and follow the steps to create a *FREE* account.

2. Click the **Print On Demand** link located below the logo.

3. Click the **Start Your Book** button.

- Next you will be taken to the Create Book For Print On Demand page. Here you will be asked to fill in various fields required to set up you book.

Create Book For Print on Demand

Fill in and select the options below to start your book. Click the **Upload Text PDF** button to proceed to the next step. All of the items below are required.

Working Title

200 character(s) left

Book Size

Book Binding

If your book will need to lay flat we recommend selecting the spiral bound option.

Perfect Bound

Spiral Bound

Binding Edge:

Select the binding edge for your book. Books in English are bound on the left hand side. Languages such as Hebrew or Arabic are bound on the right hand side.

Book Interior Color Option

Category / SubCategory

Required Category

Category/Genre

Sub-Category

Sub-Category

Cancel

Upload Text PDF

Type in Book title, you can change it at any time.

Select a book size from the drop down.

Select a book binding.

Select a book binding edge. All books would be bound on the left hand side except for Hebrew and Arabic books.

Select the book interior color. You have two options: Black and White or full color. The cover is always full color.

Select a category and a sub-category from the drop down menus. You must select one, however you can add up to five. If you can't find a fitting category, you may call us and we will add a category and sub-category for you.

Click Upload Text PDF

5. It's time to upload your PDF.

Upload Text PDF

Upload your text PDF below by clicking the **Browse** button to locate your PDF on your computer and then click the **Upload** button to upload the file and proceed to the next step.

Please Note:

- The PDF should not contain the cover.
- The pages in the PDF should not be set up as a spread (seeing two pages at one time).
- Make sure that the text PDF is the exact size you selected when creating your book in the previous step. If you chose a 6" x 9" book your PDF must also be 6" x 9", we do not resize your PDF to match.
- As we use digital printers, to generate a proper bleed on your interior pages we recommend that you fade out your images about 1/8 inch from the edge of the paper or leave a white border on all four sides.
- **If the PDF you are uploading does not have the fonts embedded we are not responsible for anything that is printed incorrectly. Creating the PDF as a PDF/X version (we suggest PDF/X-1a:2001) will ensure the fonts are embedded. [Click here for instructions on how to create your PDF.](#)**
- Perfect bound books 20 pages or less will be saddle stitched instead of perfect bound.
- **All PDFs that are uploaded with an odd number of pages will automatically have an extra page added to it that will include TheBookPatch imprint.**

Maximum file size: 200MB

Choose File No file chosen
